

Fall of rain sensor will be away from the hinge at 12" : 12" (45°) to the horizon

Adjustable mounting bracket powder coated to external skylight color

Plan View of VisionVent

When a rain sensor is required the customer is to specify a mounting position at time of order, this is to maximize exposure to the elements and avoid being in the rain shadow of the building.

There are five positions for the rain sensor. Either skylight mounted (positions 1-4) or externally mounted with flying lead (position 5).

Refer to 100-SDD-US-003 for wiring details and cable lengths.

NOTE: The rain sensor is an optional extra
